

Paheli

DANCE GROUP

Exploring Bollywood

About us

„Paheli” (from hindi „secret”) – a group of four friends, who share the same fascination for dance and Indian culture. Each of us started dancing a while ago, learning under the eye of different instructors such as Magdalena Niernsee, Kinga Malec, Magdalena Ingłot. After a year of common practice and several shows in Warsaw, we decided to form a dance group. We are now working and performing together since October 2011.

The art of Paheli

Apart from developing new techniques during classes and workshops, we dance together with the same desire to explore Indian dances and to share our discoveries with people. We wish to transmit our passion for this art. Our aspiration is to provide a doorway into a world of tradition, music and colors, that altogether form the basis of our secret. In each of our dances, we introduce a bit of mystery to the audience, through the combination of movement and emotion.
